

Join us on Friday, July 5th, as FAAC Nordic proudly celebrates 50 years of delivering high quality products and innovative solutions!

From the humble beginning with the DAAB line for Industrial Doors and Gates, we've seen a fantastic growth alongside our customers' needs. It took us a couple of decades to perfect our solutions, but our commitment to quality gave us a strong position in the market.

The 2007 acquisition by FAAC was a game-changer, expanding our product range and enhancing our expertise. We remain dedicated to innovation and customer service, ready to meet challenges ahead with passion and experience.

P.S. If you're passing by, we have an open house and a piece of cake is waiting for you

Welcome to join our celebration!!

Ola Hansson, MD FAAC Nordic
