

## It's time to wrap up 2023

2023 is coming to an end and has been filled with challenges both in the world and in our immediate surroundings. Despite this, we continue to evolve and during this year a lot of fun things has happened at FAAC!

- Our **website** launched in Finnish
- **Cometa** has become a part of FAAC
  - Exciting news coming up in the area of **security portals**
- Six new **colleagues** in the team
- **A Defibrillator** has been installed at our factory and head office in Perstorp
- This years winner of **FAAC Challenge** received their award
- **Our service vans** got a new updated look in two nuances of blue

## Let us look ahead

We are looking forward to 2024 with a lot of happiness. It actually is not just any year but the 50-year anniversary for FAAC Nordic. Apart from the big birthday a lot of other exciting news are coming up.

- **Stängseldagen** in february
- CE marking course **Säker Port/grind** will be arranged at our headquarter in Perstorp.
- We will show our products at the security exhibition **SKYDD** in Stockholm
- Launching our **new smart remote controls**
- **Simply Connect** will be launched in the Nordics - access the gates remotely

---
